

# TOWN OF SALISBURY COMMUNITY CHOICE POWER SUPPLY PROGRAM STATUS REPORT Q1 2020

Prepared June 2020

This report has been prepared by Colonial Power Group with information/data being provided by the Competitive Supplier and National Grid. The purpose of the report is to provide information about the Town of Salisbury's Community Choice Power Supply Program, which currently provides competitive power supply to approximately 4,100 consumers in the Town. The data provided by the Competitive Supplier is not available until three months after the month it is used. For example, power is *Used* in January, *Invoiced* in February, *Paid* in March and *Reported* in April.

PROGRAM RATES	
Term	January 2019- January 2021
Competitive Supplier	First Point Power
All Rate Classes	\$0.11065 / kWh
Renewable Content	100% offset by National Wind RECs

## COMPARISON TO NATIONAL GRID RATES

[Click here for NGRID GreenUp Info](#)

The Town of Salisbury has chosen a 100% green product, which supports renewable energy as 100% of the power supply is offset with Renewable Energy Certificates (REC's). The Town's aggregation savings are directly tied to the margin of savings between the Program's rates and National Grid's corresponding Basic Service rates as well as the level of consumption by participating consumers. Basic Service rates change twice a year or more, depending on utility and rate class. As a result, the aggregation rate may not always be lower than the Basic Service rate. The goal of the aggregation is to deliver savings over the life of the Program against the Basic Service rate. However, such savings and future savings cannot be guaranteed.
