**GENERAL NOTES**

1. All work shall be in conformance with local and state standards.
2. Contractor shall verify the location of existing utilities with appropriate utility companies prior to start of construction.
3. Contractor shall obtain all necessary permits for work shown on these plans.
4. Contractor shall be responsible for obtaining all necessary permits.
5. Contractor shall coordinate work with respective utility companies in a timely fashion.
6. The contractor shall be solely responsible for all means, methods and techniques employed to perform the work shown on these plans.
7. Contractor shall comply with the Solidity Planning Board Rules and Regulations governing these plans.

**PLANNING NOTES**

1. The contractor shall supply all plants in quantities sufficient to complete the work shown on the plans.
2. Any plant substitutions must be approved by the Landscape Architect.
3. The landscape contractor is advised of the existence of underground utilities, the location of which shall be verified by the contractor prior to any operations. Should the location of proposed plant conflict with any of said utilities, the landscape architect shall be notified immediately.
4. The landscape contractor shall replace a tree to original condition and to the owner's liking, as damaged as a result of their operations or no additional cost to the owner.
5. All plants shall have a 4" min. of topsoil.
6. Lawn areas shall have a 4" min. of topsoil.
7. Lowland areas shall have a 6" min. of topsoil.
8. All trees and shrubs shall be banded and staked.
9. All trees and shrubs shall be banded and staked.
10. All trees and shrubs shall be banded and staked.
11. The landscape contractor to provide temporary irrigation to all new planting areas using existing water main. Water main shall be banded and staked.
